Welcome to Libra Industries

Libra's initial success with PPE over a half century ago has paved the way for creating divisions that make a difference in the day-to-day workplace/jobsite tasks for every industrial, commercial or governmental market. Our valued customer base is very diverse and encompasses all sizes.

Founded in 1969, Libra Industries has grown to serve as one of the nation's premier personal protective equipment distributors, as well as the country's largest closed-loop PPE recycler for further operational savings.

When it comes to worker and workplace safety, Libra is committed to providing solutions that truly satisfy your unique challenges.

Balancing Your Personal Protective and Industrial Supply Needs

Today, we are still the single source to turn to for PPE, absorbent and industrial supplies. We also offer unique programs that target operational savings through recycling, state-of-the-art delivery and management processes and customized work apparel.

Libra wants to be your first-choice provider. We have solutions for nearly every application—at a competitive price. We represent over 300 manufacturers across the globe. This gives Libra the ability to deliver on quality with products that meet a wide range of budgets.

PPE & Industrial Products

Worker and workplace safety is our primary concern, so we work hard to make sure we carry the products that keep your crew going home safe at the end of the day.

Our sales representatives are highly knowledgeable and will take the time to listen to your specific challenges and offer solutions that satisfy what you're trying to achieve with product effectiveness and cost savings in mind.

Manufacturing • Medical • Automotive • Construction
 Education • Agriculture • Distribution
 Shipping/Transportation • Government

Many of our customers demand solutions that go beyond conventional purchases and delivery. Libra's ReadyVend system keeps your workforce running, because the daily supplies needed are onsite. Our vending equipment will be properly stocked with your specific configurations.

ReadyVend Vending Solutions

This will help resolve waste issues, identify specific employee use and provide a more efficient means of product distribution.

Coupled with our closed-loop PPE recycling/cleaning program and ReadyShip system, you can stock your vending equipment for further savings. Our vending solutions are completely customized for your specific needs. Contact our sales pros for additional information.

Material Specifications

Goggle material	Polycarbonate
Face Shield material	Polycarbonate
Adjustable Strap material	Flame Retardant

Standard Compliance

Meets ANSI Z87.1 High Impact
Meets CSA Z94.3

Country of Origin

Made in Taiwan

Description & Performance

Ultra-soft body design conforms to your face for superior comfort, fit and safety. Made with indirect vents for added protection from chemical splash and dust. Optically correct lens delivers and exceptional view with no distortion. Sta-Clear anti-fog coating guarantees a fog free working environment. Fits over most prescription eyewear. Provides 99.9% UV protection. Detachable face shield allows goggles to be worn separately. Clear version ideal for industrial, mining, construction, pressure washing, grinding and more. Shade 3 and 5 IR ideal for oxy/acetylene cutting, brazing, and plasma cutting operations. All models meet or exceed ANSI Z87.1+ high impact standards.

WHEN YOU'RE THE WORLD'S LEADER IN WORKWEAR, YOU DON'T JUST SHOW UP... YOU SHOW THE WAY

At Workwear Outfitters, that's what we strive to do for the millions of industrial, service, and government workers we so proudly and passionately serve, every day. So they can show up, show the way to work, too. The Best At Work.

PPE Recycling Division... featuring ReadyShip

Extending the product life while reducing waste is an incredible feat to accomplish—coupled with reducing operational costs helps position our valued customers to be competitive.

We are the nation's largest glove and PPE washer/recycling company. Our multi-step process is proven and provides an option that other distribution chains cannot. We begin by removing loose debris and metal shavings, then separate items by their wash process—dry cleaning or water wash.

Once washed, we also have an option to scan for any further metals. Then we sort, pair and package for ReadyShip delivery—no matter where you are in the country.

Our AbsorbPro system is available for a streamlined process for absorbent recycling.

A cost saving report is provided at the end of the year, or upon request

Cleaned, reusable product can be used over and over again

Collect your reusable PPE in bin or pallet container

Cleaned product is packed back into a tote or pallet container and shipped back

Ship to Libra or call when full & Libra will arrange transportation

Reusable gloves & PPE are cleaned using non-toxic, non-hazardous solvent

Work Apparel ReadyFit

Uniform Division

Libra can outfit your business with custom screen printing or embroidered products. The product choices are endless, as we carry the workwear items you're looking for. Custom work uniforms and work clothing can be designed for your entire crew with top brands, such as Carhartt, Dickies, Red Kap and more!

Libra also offers fully-customized company stores designed to reinforce your corporate brand.

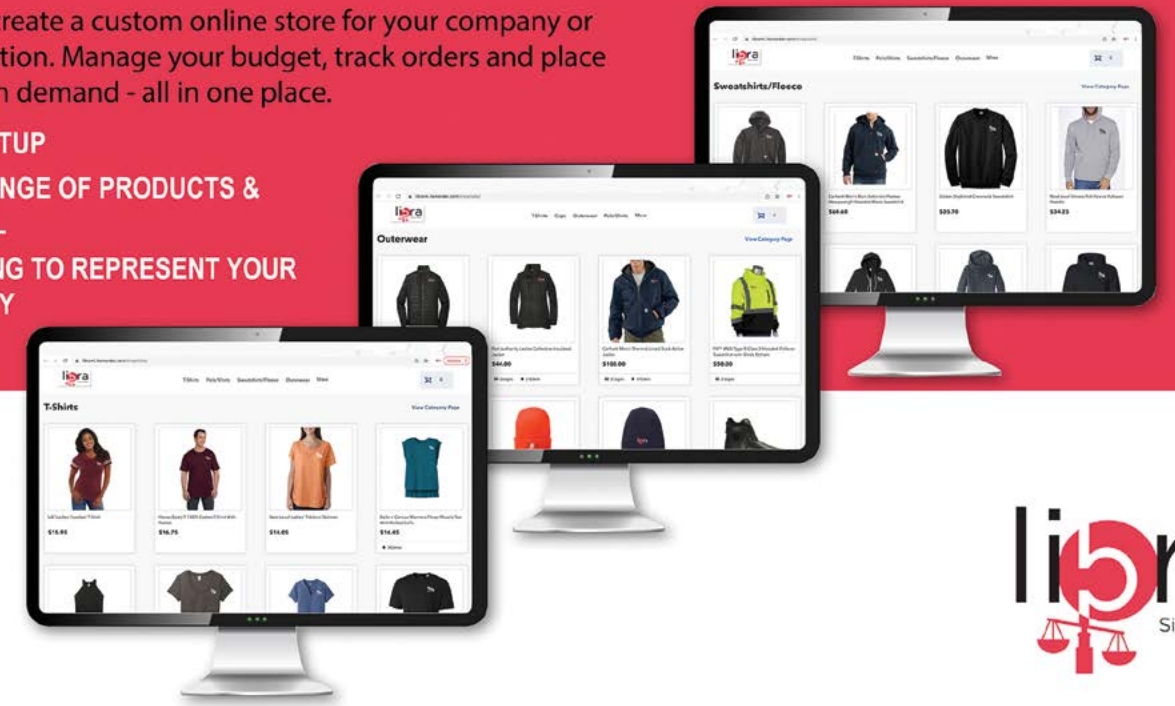

Custom Embroidery & Screen Printing
